

## PRAYER LIST: WED December 5<sup>th</sup>, 2018

This week we would like to keep any and all church family members who are dealing with unspoken requests. Of these, we know there are MANY. Those dealing with loss of loved ones who they will miss during this Christmas season and those under heavy burdens of stress due to health issues or financial hardships brought about by the pressures of the holiday season.

We pray for David Hites (Randy's brother) as he suffered an accident here last week while volunteering his time to do construction work on our building. Please keep him in prayer as he heals and adjusts to new ways of doing day to day tasks. Surround him with healing and peace, Lord.

We pray for Mike Sass as he takes further steps in the process of finding the source of his health problems and for his upcoming MRI. He says *"Next step is the 2nd MRI on 12/10 to rule out a mass as causation for the spontaneous internal bleeding. Please keep me on the list until the results of that 2nd MRI are communicated"*.

Tierney Green as she deals with health issues.

George Randal and his wife, Ilene as they recover and deal with health issues.

Aimee, (Pastor Wayne's cousin) is in need for prayer as she faces probable unemployment. Please pray for a new job to sustain her and her 3 children and for her peace of mind during this time.

A young man named Dan who is currently homeless in Albion. Please protect him from the elements when necessary and help direct him on the path you wish for him to go.

Pray for Tyson and Shawna Copeland as they continue to deal with the issues from his accident this past summer. Praise also for Tyson's continuing recovery!

Seth McAdams sent in this prayer request:

*I'm in my senior year in college, just finishing the second to last semester in the business program at a Christian university. I'll need to start applying for career jobs for after I graduate, but I need direction. Please pray that God will be absolutely clear with me about my calling, vocation, and the God-given purpose for my life. Although I'm not yet married, I would like to move out of Portland, and settle down in a place that would be good to raise a family, where there are high-quality schools, and a strong, Bible-believing Christian community. Pray for wisdom and clarity in where to move to, and pray for wisdom and clarity in the job search. Pray that God will connect me with excellent networking, job-hunting friends in the city I will move to, who will help me find the right job. Thank you so much.*

Judy's sister, Joyce as she settles into her new apartment.

Pastor Blaine Jorg and his wife Kristen and their children, Tim, Tank and Lily as he (and they) readjust to life after his recent amputation surgery. He is already driving and went back to church to preach this past Sunday.

We also pray for a girl named Kirstie in the Albion area who has recently separated from her children's father (3 young boys) and is now considering returning to college for Christian ministry work.

Jackie McBride as she goes through follow up appointments since her recent surgery to stretch her esophagus. She has been OK'd to start having appointments every TWO weeks, instead of one per week and also was able to eat a VERY healthy Thanksgiving dinner 😊

+++++

Please be with our community this weekend as we celebrate "Christmas in the Park". The event is not only a family fun activity, but a PUBLIC activity that is WILLINGLY ENCOURAGING the INCLUSION of Jesus and Christian beliefs about the holiday. We should give praise and thanks that we live in a town where this is happening as many towns would possibly not allow this type of inclusion at a "town public" event. We should also give thanks that we have a Santa in our town who, as soon as he steps down and "arrives" to see the children-right away gives Praise and mention to Jesus. Amen! Please also pray that we find a shepherd and three wise men to volunteer for the live nativity 😊

Pray for all of the children and families that came out to join us during our Gingerbread House Decorating Event. The party gave us the opportunity to "LOVE ON" some folks in our community and form new relationships. We pray these families would be touched by Your Love and bring Peace to their hearts this holiday season and all year as well. We ask You, Lord, if you see fit, to send some of these families back to us so we can get to know them better and have fellowship with them.

+++++

We pray for our church Pastors and all of our Sunday School Teachers, Church Staff, Trustees and Board Members that they feel a growing sense of connection and excitement for the growth our church will receive with your blessing, Lord.

Please bless our current and upcoming ministries...both here at church and throughout our communities. We ask that you lead us to those who may be in need (for whatever reason) and allow us the opportunity to fellowship with them and plant the seed you as us to plant so these folks may turn towards you to receive your Grace.

Please pray for Melissa Buscok as she directs and manages Love, INC throughout the holiday season when needs tend to be greater for families. Please bless their accounts and resources and provide guidance and peace where it is needed. We ask that you also will send people to her and this organization to act as Treasurer and Fundraiser Leader as well as the Board Members they need to fulfill each seat. Please guide and direct the hearts of those who are considering this work to feel the call in their hearts and take steps forward to meet this need.

We pray for those affected by the forest fires in Northern California. Not only for the financial losses, but for the emotional toll something like this takes on families and communities. We ask that the proper resources are allocated where they need to be and in a timely fashion so these people can attempt to have some peace during the holiday season.

We pray for those who are still in the process of rebuilding from the Hurricane season this summer. Though the cameras may have moved on...thousands of people are still dealing with loss on a huge emotional, physical and financial level. We pray that you finds ways daily to meet their needs and those needs of the people who are still doing work in those areas.
